## PHILOSOPHY

We believe that each child is unique and that children learn best through their natural curiosity and play. The philosophy of our agency is to recognize the needs of all children and to guide them towards their natural creativity and to develop sensitive individuals who are eager to learn. We believe that early childhood education should provide children with the tools and skills necessary for them to meet the challenges of a complex world. We believe that childhood should be cherished, and children should live as children today if they are to become fulfilled adults tomorrow. By providing a safe, stimulating environment, our program strives to meet the needs of each individual child's social, emotional, physical and intellectual development.

West End Home Child Care is an *inclusive* childcare setting. However, the structure of some buildings and houses do not allow wheel chair accessibility. We enroll families with a variety of abilities and disabilities. To meet our children's needs, we seek assistance from the City's consulting and other agencies.

West End Home Child Care welcomes and supports children from all kind of families and facilitates an empathetic and nurturing environment to give every possible opportunity to the children to keep their unique identity and develop to their fullest potential.

## 1. PROGRAM STATEMENT

West End Home Child Care Services offers a program that is consistent with the Ministry's Policy Statement on programming, pedagogy, and curriculum. The ministry documents we reference in our program include the following:

Early Learning For Every Child Today (E.L.E.C.T)

How Does Learning Happen! Ontario's Pedagogy For Early Years

Think Feel Act: Lessons from Research about Young Children

West End Home Child Care Services is committed to providing a pedagogically, high quality child care, in a child centered, loving, nurturing, and flexible home setting.

We perceive children as active, competent, capable, and curious learners that are rich in potential. Our play based program is well rounded and geared to meet the ever growing and changing needs of each individual child giving him or her the security of belonging.

Home providers come from different backgrounds, along with parents, and other community resources, and mixed age group of children in the home. This enables us to develop a program that provide experiences and environments to engage the children in active, positive, creative, and meaningful exploration of play and inquiry.

In order to reach our goals, the home providers, with the assistance and input of competent, well trained, and experienced staff, and within collaboration and ongoing communication with families as experts knowing their children better than anyone else, enrich our program to nurture the children's health, safety and nutrition in order to support their sense of well-being.

Speech and Language Pathologists, and other community programs. The agency will add the following supports, aids, adaptations and or modifications to the daily program, physical, social and learning environments.

Our providers' weekly program plan is developed through observing the children and their interests, with the parents input, and are adaptable to various ages. This helps the children to develop strong relationships with each other, in a positive, learning environment. Positive interaction and good communication supports children's ability to self-regulate and express themselves in their own unique ways. The program incorporates child initiated activities on daily basis, both indoors and outdoors, as well as active and quiet time, giving consideration to the individual needs of the children.

Our knowledgeable and experienced home consultants, in partnership with parents and community, are there to encourage and assist providers to create a positive environment for the children.

All home consultants, providers, students/volunteers, trainees, or anyone else residing in the house where home day care is provided, shall review and sign off on the **program statement policy** prior to beginning interaction with the children, or when substantive changes have been made, and annually afterwards. Each record of review will be signed by the person who conducted the review. All information will be documented and records will be retained on file for a minimum of three years.

Our providers encourage children to interact and communicate in a positive way by modeling appropriate interactions with children and families. They support the children's ability to self-regulate by providing positive options and solutions, also by giving the children the personal space needed to reflect. They foster the children's play and enquiry by providing appealing materials that spark the children's natural curiosity. Open ended questions are asked and the children are given time to explore their environment. The providers insure the health and safety of the children at all times by scanning the room, ensuring all unsafe objects are removed immediately, and implementing the guidelines set out by Toronto Public Health. The children's well-being is nurtured by providing healthy meals and snacks, as well as incorporating opportunities and time to build self-help skills. In promoting the health, safety, nutrition, and well-being of the children, we provide child initiated and adult supported experiences that encourage positive communication. Our program is consistent with our program statement on programming pedagogy.

Home consultants help the providers to develop weekly program plans by incorporating their knowledge of Early Learning for Every Child Today, How Does Learning Happen and Think Feel Act. They also help in developing a nutrient rich, menu plan according to Public Health requirements. The provider, along with the assistance of the Home Consultant, Resource Consultants, Special Need Consultants, Speech and Language Pathologists, and the parent, will develop a program geared to the specific child. The provider will use resources within the community such as community centres, drop in centres, and libraries to enhance the program. She/he will modify the floor space by moving furniture to adapt the environment to the child's needs. The Provider also will revise her/ his program and provide individual activities to meet the needs of the special needs child.

We welcome families to participate and share ideas with us, accompany providers in activities and summer outings, and by attending our workshops. Our Home Consultants communicate with parents regularly by phone.

## 4. WAIT LIST POLICY AND PROCEDURE

The West End Home Child Care Services maintains a waiting list for all interested families. Parents or guardians are required to provide contact and child/ren information in order to be placed on the wait list. The wait list is organized monthly (by the date childcare is required). Parents need to choose a month they will require care and remember which month they have chosen. If parents choose to change this date they are required to inform the Centre to update the wait list.

We service children in sequence of first come, first served. Priority for placement is determined according to the date the parents or guardians called requesting childcare. When a space becomes available we will call all families interested in the spot.

The space is given to the first parent or guardian who commits to taking the available spot. Placement of a child on the waiting list is free of charge.

Priority for openings is given to families that have children (siblings) enrolled at the West End Home Child Care Services and as well as age acceptance according to the provider's space availability. If you have twins, it may be necessary to enroll one child first and then wait for the next available spot for the other, or enroll them in different homes until they are able to transfer to the same home.

The West End Home Child care Services will update the waiting list by checking in with the parents periodically. If the agency does not have space to offer once the month arrives for which the family requested space, your name will automatically drop from the waiting list unless the family requests staying on for future openings.

The agency will not be charging parents a fee or deposit for the placement of their child on a waiting list for a spot in a home day care.

Parents may inquire about their child's status on the waiting list at any time. The list will be made available to them so that they can see their child's position on the waiting list. The names and information of other families will be blocked out in order to ensure the privacy and confidentiality of the children listed on it.

A fever is the body's way to fight off infection or virus. Therefore, children with a fever (101.3 F or 38.5C) must not attend the Centre for their protection, the protection of other children and staff.

If a child should become **sick while at the providers home**, exhibiting signs of illness, excessive diarrhea and/or fever, parents will be called to pick up their child as soon as possible.

Parents/guardians will be notified upon the first loose bowel movement or vomiting and will be asked to pick up the child upon the second one. In the case of diarrhea a child can return to the day care 24 hours after the symptoms disappear. If a child has a fever of 101.3 F and 38.5C or more the parent/guardian of the child will be notified. In this case the child can return to the home 24 hours after the symptoms disappear. It is advisable that parents/guardians prepare and arrange for an alternate or emergency person who could pick up your child when you are unable to.

## **19. EMERGENCY INFORMATION/ MEDICATION**

The parent/guardian will sign medical and travel permission forms and will ensure all information is kept current, both with the Home Child Care Provider and the Agency. **The parent/guardian agrees to notify the agency of any changes of address employment and/or telephone numbers.**

The parent/guardian will supply prescription medicine only. The medication has to be in the original container, clearly labelled with the child's name, the current date, the name of the medicine, the instructions for the storage, and administration of the medicine. The parent/guardian will give the Home Child Care Provider specific written instructions from the physician, including a written schedule to administer the medicine. ## **20. DAY CARE FEES AND PAYMENTS**

All families are required to pay their child care fees for everyday of the week, regardless if the child is absent, sick, or on vacation. You must notify the supervisor that you are extending your vacation or else your child will be withdrawn from the program. Your child may be re-admitted pending there is a space available. The agency is not accountable if you lose your child's space due to an unannounced extension of vacation.

There will be no reduction of fees for occasional absences and the fee may be increased at any time with proper notice (one month). Post-dated cheques, cash, or money orders and e-transfers are acceptable for payment. If an account is overdue more than 15 days, the Centre may choose to withdraw the child unless otherwise notified.

All families must pay their child care fees by the first week of every month. Please note that a \$30.00 administration charge will be applied for N.S.F. cheques.

Effective January 1, 2018 parents will not be billed for statutory holidays unless they need care for their child

A non-refundable registration fee of \$25.00 is required before your child is enrolled into the program. You will also be required to give a minimum of 2-weeks deposit upon enrollment.

If the child is absent for more than 35 days, the parent/guardian is responsible for paying the full cost of care. Statutory holidays will be excluded from the 35 days. Requests for additional days of absence, beyond the 35 allowable days, may be approved by the subsidy office through the appeal process.

Consequently, the agency requires that you pay a one week's full fee deposit once your child has been absent 30 days. When you reach the 35 days you will be requested to pay for the absent days upon your return to the day care. The agency has the right to cancel care for your child if you refuse to pay the deposit or daily fee promptly.

The agency will issue a receipt for all cash money payments made to West End Home Child Care Services.

The agency will issue an annual receipt for income tax purposes. Parents are asked to call and verify mailing address

**Part time parents must have set days of care.** There is no option of altering the days of attending child care, for keeping their child at home due to sickness, day off work or any other reason

## **23. HOME CHILD CARE CONSULTANTS**

The Home Child Care Consultants will supervise the homes at least once a month. Consultants may also drop in for spot checks as they deem appropriate/necessary. The Home Child Care Consultants will discuss on an ongoing basis any concerns that the parents may have. This is to ensure positive communication and support of the child's needs and developmental progress. The Home Child Care Consultant will arrange for the parents to meet the Provider. The parent will visit the home they have selected as being most suitable to meet their child's needs prior to the child starting care. At this point pre-placement meeting, parent/guardian will have the opportunity to see the home and discuss their child's needs.

## **24. DROP OFF & PICK UP**

Older children between the ages of 13 to 18 years are not permitted to pick up a child from the home day care unless the parent/guardian provides the Home Provider with signed, written permission, and inform the Agency. At the end of each day, you must find time to discuss your child's day with the provider.

If parents requests for their child (10 years of age and older) to leave the premises on his/ her own, the parent must provide the Home Provider with signed written permission and inform the Agency.

## **25. LATE PICK-UP**

Parent/guardian must notify the Provider as soon as possible that they are going to be late. If there has been no contact from the parent/guardian, or the emergency contact person, the Home Child Care Provider has been instructed to call the Children's Aid Society after 7:30pm.

## **26. LATE FEE**

I agree to pick up my child before 6:00 pm. I understand that if I am late, I am responsible to pay \$ 1 for every minute after 6:00pm. I understand that if I have three or more late pick up's, my child could be withdrawn from the program. If I am unable to pick up my child by 7:00pm the Children's Aid Society will be contacted.

## **27. OUTDOOR PLAY**

Home Child Care Providers are required to take the children outside two hours per day, weather permitting.

Children must be dressed appropriately for current weather conditions. For example, in the winter all children are required to wear waterproof, warm boots, a winter coat, waterproof mittens and a warm hat. All children must have a pair of indoor shoes. In the summer, all children must wear proper running shoes that are comfortable while on trips and excursions. All children must have sunscreen and wear a hat everyday while at the Centre. These will protect them from the hot sun.

All children that attend the home child care for six or more hours should spend at least two hours a day outdoors. If a child is not well enough to be outdoors, they should not attend, and will not be accepted in the Centre. School-age children must be outside after school for about 30 minutes.

Children will not be going outside in the winter when the wind-chill is -12C or more. In the summer, children will not be going outside when the temperature is 35C (95F) or greater and the air quality index is 5 or more. Alternative, indoor activities will be planned for these occasions and the outdoor time may be change (early in the morning or late in the afternoon) or the time spend outdoor may be reduced.

If the child is to be restricted from outdoor play for more than 2 days, West End Home Child Care Services has the obligation to ask for and receive a Doctors Medical Statement. West End Home Child Care may ask the parent to make other day care arrangements for their child. The Home Child Care Provider cannot be expected to restrict the others in their home from going outside, for one child. Parent/guardian understands there will be no reduction of fees for their child's illness/absence. Providers and children are visiting Resource Centres, Parks, Recreation Programs, Libraries, and other Community Resources. All children are supervised during outdoor play at all times, in a private home daycare. It is extremely vital that the home day care provider is physically present during outdoor play.

## **28. SUPERVISION**

All providers are to ensure that every child who is in attendance, is supervised by the primary provider at all times, unless authorization has been granted by the parents in writing, and approved by the agency for another person to have limited, unsupervised access, other than the provider, who is usually present on the premises of the home day care location. No child is to be left alone at any time or to be supervised by a person less than 18 years of age. All school children must be escorted to and from school, school bus, or special transportation by the home caregiver, or a designated person approved by the parent/guardian, by signing the school escort form.

## **29. REST PERIOD**

According to the Day Nurseries Act, each child over 18 months and up to 5 years of age, require a resting period not exceeding two hours, following lunch time. Any child unable to sleep will be encouraged to have "quite rest/time" for this period. Children under 30 months of age and attending day care for six hours or more must be sleeping for no more than two hours daily.

In order to reduce SIDS on infants, we advise you of the provider's obligation to place children on their backs for sleep, in accordance with the Joint Statement on Safe Sleep.

When an observance of any significant change in a child's sleeping patterns or behaviours during sleep has been made, the provider will inform the home consultant to seek advice, and she will record the observation in the log book. If the observation does not call for an emergency, the provider will discuss the observation with you at pick up time.

Providers will perform periodical, visual checks on all sleeping children in the home.

Providers will go over to the sleeping child and look for indicators of distress or unusual behaviour.
